**Butterfly Valve - Butter fly Valve - Wafer Valve - Flour Valve - Sugar Valve**

**Butterfly Valves - Butter Fly Valves - Wafer Valves - Flour Valves - Sugar Valves**

Butterfly Valves are available for non-abrasive and abrasive applications. Butterfly Valves are typically used during filling and scaling operations or to seal off the flow of air or material.

**SPEC** has provided and installed complete turnkey flour and sugar systems incorporating components from companies like Mac Equipment, Reimelt Corporation, Smoot, Schenck AccuRate, (NBE) National Bulk Equipment, Carman Industries, K-Tron, Great Western, Bray and Shick Tube-Veyor. *Please call us for your pneumatic conveying application.*
